TALK IRRIGATION

Fourth Annual Kansas Congress at Garden City.

Federal and State Experts Will Attend Meeting.

Manhattan, Kan., Sept. 20.—The Garden City way of irrigating will form the keynote of the fourth annual Kansas Irrigation congress, to be held at Garden City Wednesday and Thursday, October 13 and 14. Announcement of features of the meeting was made today by H. B. Walker, state irrigation engineer and secretary of the congress.

Garden City was the pioneer in irrigation in Kansas. In 1880 ditches were constructed from the Arkansas river, but in the wet years following, irrigation was given up. By the time that irrigation was thought necessary it was found that Colorado had most of the available supply of river water. In 1896 irrigation was begun near Garden City with centrifugal pumps, the first used for the purpose in the state.

The program of the congress, which will include addresses by practical irrigators of western Kansas and by federal and state experts is as follows:

Wednesday morning—Registration; president's address, I. L. Diesem, Garden City; appointment of committees.

Wednesday afternoon—"The Development of Shallow Water Pumping Plants," Chester Carter, Garden City. "Developing Deep Well Irrigation Plants," Preston A. Burtis, Garden City. "Irrigation—Pumping Equipment," Prof. R. A. Seaton, Kansas State Agricultural college. "How to Reduce Operating Costs in Pumping," George S. Knapp, United States irrigation engineer, Garden City. "Oil Engines and Tractors for the Irrigation Farmer," A. Potter, dean of engineering, Kansas State Agricultural college. "The Syphon System for Irrigation Wells," Frank Peterfich, Scott City; address by C. Diesem, United States government irrigation engineer, Denver, Colo.; general discussion.

Wednesday evening—Music; an irrigation roundup, with talks by Congressman Jettett Shouse, E. E. Prizell, Larned; Prof. Erasmus Haworth, University of Kansas, Lawrence; Representative Charles Nelson, Scott City, and others to be selected.

Thursday morning—Inspection tour by automobiles to practical and successful irrigation plants in the Garden City district.

Thursday afternoon—"Practical Irrigation," G. W. Atwood, Garden City; "Preparing the Land for the Water," H. E. Quimby, Garden City; "The Way I Handle Water," A. R. Towles, Garden City; "Growing Sugar Beets by Irrigation," F. A. Gillespie, general manager of sugar company, Garden City; "When and How to Irrigate Alfalfa to Get the Greatest Tonnage," J. W. Lough, Scott City; "Irrigation Experiments," M. C. Sewell, superintendent Garden City branch experiment station; "Advancing the Interests of Irrigation in Western Kansas," Representative Bray, Syracuse; reports of committees; election of officers.

Delegates to the congress may be appointed as follows: By a commercial club, two; mayor, two; board of county commissioners, two; county institute, two; local farmers' institute, two; irrigation company, two. Any farmer irrigating more than fifty acres in Kansas is, by reason of that fact, entitled to membership in the congress.

COVER SAVED MAN AND BOY.

Automobile Went Over Embankment Near Victoria, Kan.

Victoria, Kan., Sept. 20.—John Billinger and his son had a narrow escape with a new automobile near here when the machine ran off the approach to a bridge and rolled over the embankment. The cover of the car was up and Mr. Billinger probably owes his life to the fact that the top held firm when the car rolled over. Mr. Billinger had bought the car at Hays in the morning and had only learned to operate it that day. He lost control when the car reached the end of the bridge and the machine plunged off the approach. Damage to the car was slight except for a demolished top.

WILL RACE AT HUTCHINSON.

Kilpatrick Will Be Able to Fill Schedule Friday and Saturday.

Hutchinson, Kan., Sept. 20.—Juddy Kilpatrick, the automobile racer who was injured when his 200 horsepower Ajax racer plunged into the fence at the Topeka State fair grounds, is entered in the races at the Hutchinson State fair and will probably be able to start in spite of the accident. He may be forced to use another car as the one that was damaged will probably not be repaired in time. Kilpatrick was not seriously injured and it is thought here that he will make his appearance as scheduled. The races are to be held Friday and Saturday of this week.

KANSANS ROBBED IN ST. JOE.

Two Maple Hill Men Claim They Lost \$207 in Jitney Ride.

St. Joseph, Mo., Sept. 20.—After two farmers from Maple Hill, Kan., who gave the names of Harry Clark and John Clark, told the police they had been robbed of \$207, \$187 from one \$20 from another Thursday night by two women while jitney riding, the police arrested Stella Davis, and are looking for another woman who is supposed to have been an accomplice. A warrant was sworn out for the Davis woman, and she was turned over to the constable.

NORTON TELEGRAM IS SOLD.

Congressman Connelly in Syndicate—Taking Over Newspaper.

Norton, Kan., Sept. 20.—The Norton Daily Telegram has been sold to a syndicate of Democrats, mostly of Norton. The purchasers are: D. G. Hamilton, F. M. Garrity, M. B. Lease, C. W. Campbell and Congressman J. R. Connelly of Colby.

The Telegram was started here seven years ago by Will Garland and afterwards owned by his father, Nick Garland. After the death of the latter the paper was taken again by Will Garland. He will probably remain as editor of the paper when the new owners take over the management.

INDIANS IN CELEBRATION.

Several Tribes Hold Annual Jubilee at White Cloud Reserve.

White Cloud, Kan., Sept. 20.—Winnebago, Otoe, Kickapoo, Pottawatomie, Sac and Foxes, Iowas and representatives of other Indian tribes, are holding their annual celebration on the old reservation on the Margrave

Want Better Cotton Prices.

Atlanta, Ga., Sept. 20.—The National Farmer's Union meets here tomorrow "to fix a reasonable price for cotton." President C. S. Barrett of the union declares that not a farmer in the entire south ever succeeded in borrowing a dollar of the \$500,000,000 which Secretary of the Treasury McAdoo announced a year ago was ready to loan to the cotton producers. Unless the farmers succeed in obtaining the money this year, he contends, the business world will suffer. Twelve and a half cents per pound is the price that will probably be fixed.

COFFEE

This can contains 100 grains of caffeine

Why Not Brand Coffee Properly?

A Philadelphia restaurant keeper was arrested under the pure food laws for serving adulterated coffee. His lawyer claimed coffee was not a food.

Leading food experts uphold this contention—that Coffee is NOT a Food, but a

Drug Beverage

Under its true colors most every pound of coffee sold should carry the truthful warning: "This can contains about 100 grains of caffeine."

Caffeine is a powerful habit-forming drug. Its daily use hinders digestion, irritates the nerves, causes headache, heart flutter and many other ailments.

The way to play safe with health is to quit coffee and use

POSTUM

It is made of choice whole wheat and a bit of wholesome molasses. Postum has a delicious java-like flavor yet contains no caffeine or harmful element.

There are two forms of Postum. The original—Postum Cereal requires thorough boiling. 15c and 25c packages; Instant Postum—the soluble form—is made in the cup at the table with boiling water. Both kinds are equally delicious and the cost per cup is about the same.

Ten days off coffee and on Postum shows clearly
